Austral Bricks

At Austral Bricks, we understand that building a new home is a lifetime experience. The realisation of a dream, a union of your ideas, an expression of your style. We are dedicated to building the most exciting homes and have the largest range of brick finishes and colours for you to select from. With enduring style, energy saving efficiency, and everlasting strength, a home built with Austral Bricks is a place to live, love and be you.

European

Headquartered in Loreggia PD, Italy, San Selmo has always been at the forefront in the design and production of innovative products. San Selmo combines craftsmanship and time-tested methods with advanced technologies to create a wide range of products.

Spain has a history of passion, colour and vibrancy - and that's exactly what La Paloma delivers. Beautiful as architectural feature highlights, and equally elegant as a feature wall or facade, La Paloma bricks are designed to inspire creative bold expressions.

Bricks are designed to last

—

Versatility in design, durability that lasts a lifetime and the highest thermal comfort, with almost no maintenance. Clay bricks tick all the boxes for homes and projects with value and sustainability in mind.

Affordable Value

—
Brick is the only material that will continue to make you money now, and in the future. Your building material is the most important decision you will make when building your new home, so you want to be confident you are making the right choice.

Low Maintenance

—
Bricks require very little maintenance, meaning you have one less thing to worry about. Bricks don't fade, rot, rust or decay, meaning they remain completely weatherproof, durable and attractive forever.

Strength and Safety

—
Unlike other materials, bricks are fire resistant – when you build with brick, you are protecting your investment and your loved ones.

Energy Efficient

—
A home built with brick helps you do your bit for a more sustainable planet, while reducing your bills by up to 40% – win-win!

Naturally Sustainable

—
If you want a sustainable home – bricks are a great choice. Building a sustainable home has never been more important. There are 3 ways that building with brick will make your home more sustainable both now, and into the future:

1. Reduced household emissions
2. Clay bricks are made from organic minerals found in naturally abundant sources of clay
3. Brickworks bricks come with a 100 Year Warranty

Primary Product – Grey Cashmere | San Selmo Range
Herringbone Pattern – Tenerife & Seville | La Paloma Range
Architect – Pacific Environments
Bricklayer – CF King

Origin Range

—

The bricks of the Origin range are fresh and modern. Whether you want a clean and minimalist look or one with character, these colours and textures combine beautifully with other materials like timber, stone, steel and glass to make your home a statement of your individual style.

San Selmo Range

—

Italy - inspired, rustic, charming and richly textured, San Selmo brings with it a strong European heritage.

Kilnfired in Italy, these elegant clay bricks boast a tactile surface inspired by recycled bricks, lending a distinctive rustic finish. With a tonal palette ranging from pale hues, deep colours of the earth to steely blue-greys, they're perfect for both modern and traditional homes, adding genuine warmth to any project while offering versatility for contemporary architectural endeavours.
